17th International Mineral Processing Symposium

International Mineral Processing Symposium was first held in 1986 and since then it has biennially been organized by the 5 renowned universities in Turkey sequentially. This year, 17th International Mineral Processing Symposium will be jointly hosted by Mineral Processing Department at Istanbul Technical University and Turkish Mining Development Foundation in Tuyap Exhibition and Congress Center. Moreover, for the first time Mining Turkey 2022 Fair will accompany during the Symposium at the same venue simultaneously. The symposium will bring together distinguished engineers and scientists specialized in the field as well as leading manufacturers and their representatives to discuss scientific and technical developments and innovations on different platforms. It is foreseen that the synergy of concurrently organized activities will attract much more national and international participants including academicians, state and private sector executives and representatives of manufacturing companies. Your participation and affirmative contributions shall greatly honor us and we shall be delighted to host you at 17th Mineral Processing Symposium in Istanbul.
